

PRODUCT INFORMATION

Clone ID **DM93** BTN3A1 **Target**

Synonyms BTN3A1; BTF5; CD277; BTN3.1; BT3.1

Host Species Rabbit

Description Anti-BTN3A1 antibody(DM93); Rabbit mAb

Delivery In Stock **Uniprot ID** 000481 IgG type Rabbit IgG Clonality Monoclonal Reactivity Human

Applications ELISA; Flow Cyt

Recommended

ELISA 1:5000-10000; Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & Reconstitution

Storage & Shipping

Background

- 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store

at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

The butyrophilin (BTN) genes are a group of major histocompatibility complex (MHC)associated genes that encode type I membrane proteins with 2 extracellular immunoglobulin (Ig) domains and an intracellular B30.2 (PRYSPRY) domain. Three subfamilies of human BTN genes

are located in the MHC class I region: the single-copy BTN1A1 gene (MIM 601610) and the BTN2 (e.g.; BTN2A1; MIM 613590) and BTN3 (e.g.; BNT3A1) genes; which have undergone tandem duplication; resulting in 3 copies of each.

Usage Research use only

Conjugate Unconjugated

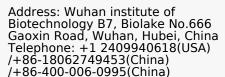

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under

patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are **DIMA Disclaimer**

actively scrutinizing all patent application to ensure no IP infringement.

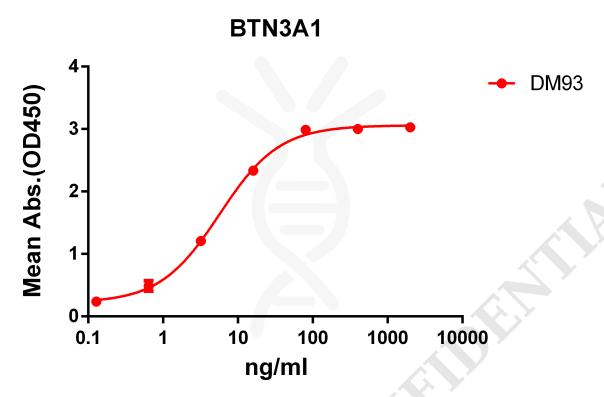

Figure 1. ELISA plate pre-coated by 2 μ g/ml (100 μ l/well) Human BTN3A1 protein, mFc-His tagged protein PME100056 can bind Rabbit anti-BTN3A1 monoclonal antibody (clone: DM93) in a linear range of 0.64-80 ng/ml.

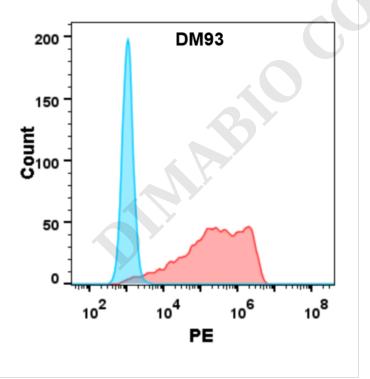

Figure 2. Flow cytometry analysis with Anti-BTN3A1 (DM93) on Expi293 cells transfected with human BTN3A1 (Red histogram) or Expi293 transfected with irrelevant protein (Blue histogram).

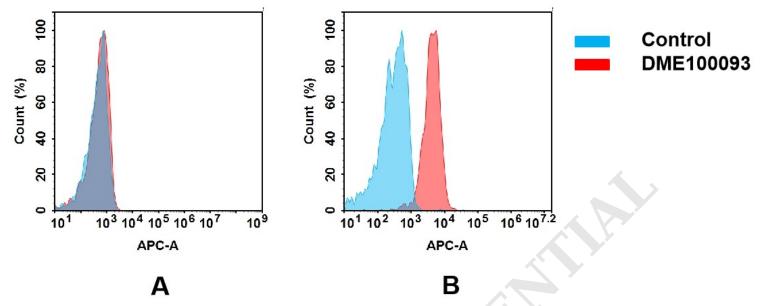

Figure 3. Flow cytometry analysis of antigen binding of rabbit anti-human BTN3A1 mAb(DME100093).

(A) DME100093 does not bind to MCF-7 cells that do not express BTN3A1

(B) A clear peak shift of DME100093 was seen compared to the control when incubated with BTN3A1-expressing 8226 cells, indicating strong binding of DME100093 to BTN3A1. Antibodies were incubated at 2 µg/mL.
