

PRODUCT INFORMATION

Clone ID	DMC269
Target	CD44
Synonyms	CD44;CDW44;CSPG8;ECMR-III;HCELL;HUTCH-I;IN;LHR;MC56;MDU2;MDU3;MIC4;Pgp1;Epican
Host Species	Rabbit
Description	Anti-CD44 antibody(DMC269); IgG1 Chimeric mAb
Delivery	In Stock
Uniprot ID	P16070
IgG type	Rabbit/Human Fc chimeric IgG1
Clonality	Monoclonal
Reactivity	Human
Applications	Flow Cyt
Recommended Dilutions	Flow Cyt 1:100
Purification	Purified from cell culture supernatant by affinity chromatography
Formulation & Reconstitution	Lyophilized from sterile PBS, pH 7.4. Normally 5% - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution.
Storage & Shipping	Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.
Background	The protein encoded by this gene is a cell-surface glycoprotein involved in cell-cell interactions; cell adhesion and migration. It is a receptor for hyaluronic acid (HA) and can also interact with other ligands; such as osteopontin; collagens; and matrix metalloproteinases (MMPs). This protein participates in a wide variety of cellular functions including lymphocyte activation; recirculation and homing; hematopoiesis; and tumor metastasis. Transcripts for this gene undergo complex alternative splicing that results in many functionally distinct isoforms; however, the full length nature of some of these variants has not been determined. Alternative splicing is the basis for the structural and functional diversity of this protein; and may be related to tumor metastasis.
Usage	Research use only
Conjugate	Unconjugated

Figure 1. Flow cytometry analysis with Anti-CD44 (DMC269) on Expi293 cells transfected with human CD44 (Blue histogram) or Expi293 transfected with irrelevant protein (Red histogram).

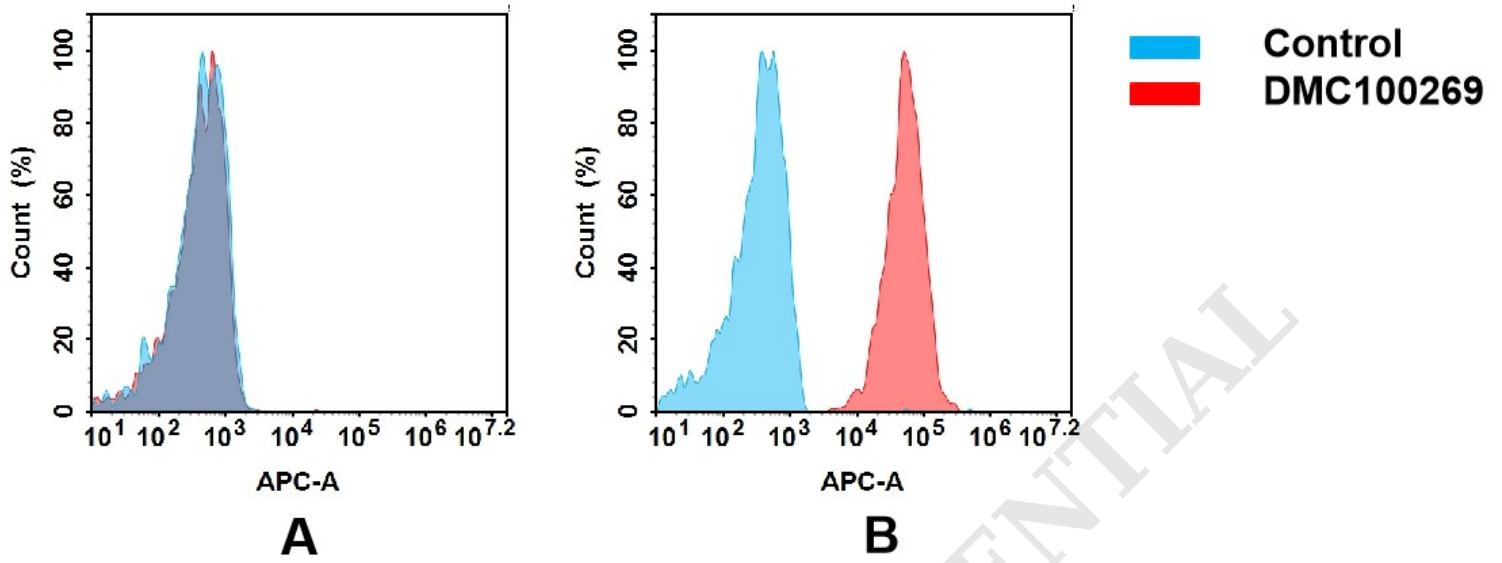

Figure 2. Flow cytometry analysis of antigen binding of anti-human CD44 mAb(DMC100269).

(A) DMC100269 does not bind to CHO-S cells that do not express CD44.

(B) A clear peak shift of DMC100269 was seen compared to the control when incubated with CD44-expressing THP-1 cells, indicating strong binding of DMC100269 to CD44. Antibodies were incubated at 5 µg/mL.
