

## **PRODUCT INFORMATION**

| Clone ID                        | DM67  |
|---------------------------------|---|
| Target                          | 4-1BB   |
| Synonyms                        | TNFRSF9; 4-1BB; CD137; CDw137; ILA  |
| Host Species                    | Rabbit  |
| Description                     | Biotinylated Anti-41BB antibody(DM67); Rabbit<br>mAb  |
| Delivery                        | 2-3 weeks   |
| Uniprot ID                      | Q07011  |
| lgG type                        | Rabbit IgG  |
| Clonality                       | Monoclonal  |
| Reactivity                      | Human   |
| Applications                    | ELISA; Flow Cyt   |
| Recommended<br>Dilutions        | ELISA 1:5000-10000; Flow Cyt 1:100  |
| Purification                    | Purified from cell culture supernatant by affinity chromatography   |
| Formulation &<br>Reconstitution | Lyophilized from sterile PBS, pH 7.4. Normally 5 %<br>– 8% trehalose is added as protectants before<br>lyophilization. Please see Certificate of Analysis<br>for specific instructions of reconstitution.   |
| Storage & Shipping              | Store at -20°C to -80°C for 12 months in<br>lyophilized form. After reconstitution, if not<br>intended for use within a month, aliquot and store<br>at -80°C (Avoid repeated freezing and thawing).<br>Lyophilized proteins are shipped at ambient<br>temperature.  |
| Background                      | The protein encoded by this gene is a member of<br>the TNF-receptor superfamily. This receptor<br>contributes to the clonal expansion; survival; and<br>development of T cells. It can also induce<br>proliferation in peripheral monocytes; enhance T<br>cell apoptosis induced by TCR:CD3 triggered<br>activation; and regulate CD28 co-stimulation to<br>promote Th1 cell responses. The expression of<br>this receptor is induced by lymphocyte activation.<br>TRAF adaptor proteins have been shown to bind<br>to this receptor and transduce the signals leading<br>to activation of NF-kappaB. |
| Usage                           | Research use only   |
| Conjugate                       | Biotinylated  |
| DIMA Disclaimer                 | All DIMA recombinant antibodies are genuinely<br>generated by DIMA Biotech. They are all under<br>patent application. Any protein sequencing or<br>reverse engineering attempt is prohibited. We are<br>actively scrutinizing all patent application to<br>ensure no IP infringement.   |
