Cat. No. DMC101033B

PRODUCT INFORMATION

Clone ID 52A11 CD79B **Target**

Synonyms AGM6;B29;IGB

Host Species Rabbit

Biotinylated Anti-CD79B antibody(52A11); IgG1 Description

Chimeric mAb

Delivery 2-3 weeks **Uniprot ID** P40259

Rabbit/Human Fc chimeric IgG1 IgG type

Clonality Monoclonal Reactivity Human

Applications Flow Cyt; WB

Recommended

Background

DIMA Disclaimer

Flow Cyt 1:100; WB 1:1000 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis Reconstitution

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store Storage & Shipping at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient

temperature.

The B lymphocyte antigen receptor is a multimeric complex that includes the antigenspecific component, surface immunoglobulin (lg). Surface Ig non-covalently associates with two other proteins, Ig-alpha and Ig-beta, which are necessary for expression and function of the B-

cell antigen receptor. This gene encodes the Igbeta protein of the B-cell antigen component. Alternatively spliced transcript variants encoding different isoforms have been described. [provided

by RefSeq, Jul 2008]

Research use only Usage

Conjugate Biotinylated

> All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are
