Cat. No. DMC100478B

## **PRODUCT INFORMATION**

Clone ID **DMC478** GPR87 **Target** 

**Synonyms** FKSG78; GPR95; KPG\_002

**Host Species** Rabbit

Biotinylated Anti-GPR87 antibody(DMC478); IgG1 **Description** 

Chimeric mAb

**Uniprot ID** O9BY21

IgG type Rabbit/Human Fc chimeric IgG1

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended Dilutions

Storage & Shipping

Usage

Flow Cyt 1:100

**Delivery** In Stock

Purified from cell culture supernatant by affinity **Purification** 

chromatography

Lyophilized from sterile PBS, pH 7.4. Normally 5 % Formulation & - 8% trehalose is added as protectants before Reconstitution lyophilization. Please see Certificate of Analysis

for specific instructions of reconstitution. Store at -20°C to -80°C for 12 months in lyophilized form. After reconstitution, if not

intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing).

Lyophilized proteins are shipped at ambient

témperature.

This gene encodes a G protein-coupled receptor and is located in a cluster of G protein-couple receptor genes on chromosome 3. The encoded

protein has been shown to be overexpressed in lung squamous cell carcinoma (PMID:18057535) and regulated by p53 (PMID:19602589). [provided by RefSeq; Nov 2011] **Background** 

Research use only All DIMA recombinant antibodies are genuinely generated by DIMA Biotech. They are all under patent application. Any protein sequencing or reverse engineering attempt is prohibited. We are actively scrutinizing
