

## **PRODUCT INFORMATION**

| Тад                             | C-Flag&Strep Tag   |
|---------------------------------|--|
| Target                          | ACM1   |
| Synonyms                        | HM1, M1, M1R   |
| Description                     | Human ACM1-Strep full length protein-synthetic nanodisc  |
| Delivery                        | 6~8weeks   |
| Uniprot ID                      | P11229   |
| <b>Expression Host</b>          | HEK293   |
| <b>Protein Families</b>         | GPCR,Transmembrane,Druggable Genome,   |
| Protein Pathways                | Calcium regulation in cardiac cells,GPCRDB Class<br>A Rhodopsin-like,Monoamine GPCRs,Regulation of<br>Actin Cytoskeleton KEGG,   |
| Molecular Weight                | The human full length ACM1-Strep protein has a MW of 51.4 kDa  |
| Formulation &<br>Reconstitution | Lyophilized from nanodisc solubilization buffer (20<br>mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5%<br>– 8% trehalose is added as protectants before<br>lyophilization. Please see Certificate of Analysis<br>for  |
| Storage & Shipping              | Store at -20°C to -80°C for 12 months in<br>lyophilized form. After reconstitution, if not<br>intended for use within a month, aliquot and store<br>at -80°C (Avoid repeated freezing and thawing).<br>Lyophilized proteins are shipped at ambient<br>temperature.   |
| Background                      | The muscarinic cholinergic receptors belong to a<br>larger family of G protein-coupled receptors. The<br>functional diversity of these receptors is defined<br>by the binding of acetylcholine and includes<br>cellular responses such as adenylate cyclase<br>inhibition, phosphoinositide degeneration, and<br>potassium channel mediation. Muscarinic<br>receptors influence many effects of acetylcholine<br>in the central and peripheral nervous system. The<br>muscarinic cholinergic receptor 1 is involved in<br>mediation of vagally-induced bronchoconstriction<br>and in the acid secretion of the gastrointestinal<br>tract. The gene encoding this receptor is localized<br>to 11q13. [provided by RefSeq, Jul 2008] |
| Usage                           | Research use only  |
| Conjugate                       | Unconjugated   |
