

## **PRODUCT INFORMATION**

| Тад                             | C-Flag&Strep Tag  |
|---------------------------------|---|
| Target                          | OR2M4   |
| Synonyms                        | HSHTPCRX18, HTPCRX18, OR1-55, OST710,<br>TPCR100  |
| Description                     | Human OR2M4-Strep full length protein-synthetic nanodisc  |
| Delivery                        | 6~8weeks  |
| Uniprot ID                      | Q96R27  |
| Expression Host                 | HEK293  |
| <b>Protein Families</b>         | Transmembrane,Druggable Genome,   |
| Protein Pathways                | GPCRDB Other,   |
| Molecular Weight                | The human full length OR2M4-Strep protein has a MW of 35.1 kDa  |
| Formulation &<br>Reconstitution | Lyophilized from nanodisc solubilization buffer (20<br>mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5%<br>– 8% trehalose is added as protectants before<br>lyophilization. Please see Certificate of Analysis<br>for   |
| Storage & Shipping              | Store at -20°C to -80°C for 12 months in<br>lyophilized form. After reconstitution, if not<br>intended for use within a month, aliquot and store<br>at -80°C (Avoid repeated freezing and thawing).<br>Lyophilized proteins are shipped at ambient<br>temperature.  |
| Background                      | Olfactory receptors interact with odorant<br>molecules in the nose, to initiate a neuronal<br>response that triggers the perception of a smell.<br>The olfactory receptor proteins are members of a<br>large family of G-protein-coupled receptors<br>(GPCR) arising from single coding-exon genes.<br>Olfactory receptors share a 7-transmembrane<br>domain structure with many neurotransmitter and<br>hormone receptors and are responsible for the<br>recognition and G protein-mediated transduction<br>of odorant signals. The olfactory receptor gene<br>family is the largest in the genome. The<br>nomenclature assigned to the olfactory receptor<br>genes and proteins for this organism is<br>independent of other organisms. [provided by<br>RefSeq, Jul 2008] |
| Usage                           | Research use only   |
| Conjugate                       | Unconjugated  |
