

PRODUCT INFORMATION

TargetSSR3SynonymsSS-3-R, SS3-R, SS3R, SSR-28DescriptionHuman SSR3-Strep full length protein-synthetic papedice	
Human SSR2 Strop full longth protoin synthetic	
Bescription Human SSR3-Strep full length protein-synthetic	
nanodisc	
Delivery 6~8weeks	
Uniprot ID P32745	
Expression Host HEK293	
Protein Families GPCR, Transmembrane, Druggable Genome,	
Protein Pathways GPCRDB Class A Rhodopsin-like,Peptide GPCRs,Apoptosis,Cancer,P53,	
Molecular WeightThe human full length SSR3-Strep protein has a MW of 45.8 kDa	
Formulation & ReconstitutionLyophilized from nanodisc solubilization buffer (20 mM Tris-HCl, 150 mM NaCl, pH 8.0). Normally 5% - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions. Do not use solvents with pH lower than 6.5 in subsequent experiments.	
Storage & Shipping Storage & Shipping Storage & Shipping Storage & Shipping Storage & Shipping Storage & Shipping Store at -20°C to -80°C for 12 months in Iyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80°C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature.	
 Background Background This gene encodes a member of the somatostatin receptor protein family. Somatostatins are peptide hormones that regulate diverse cellular functions such as neurotransmission, cell proliferation, and endocrine signaling as well as inhibiting the release of many hormones and other secretory proteins. Somatostatin has two active forms of 14 and 28 amino acids. The biological effects of somatostatins are mediated by a family of G-protein coupled somatostatin receptors that are expressed in a tissue-specific manner. Somatostatin receptors form homodimers and heterodimers with other G-protein coupled receptors and receptor tyrosine kinases. This protein is functionally coupled to adenylyl cyclase. Alternate splicing results in multiple transcript variants. [provided by RefSeq, Jul 2013] 	
Usage Research use only	
Conjugate Unconjugated
