Cat. No. DME100053P

PRODUCT INFORMATION

Clone ID DM53 B7-H3 **Target**

Synonyms B7-H3; CD276; B7 homolog 3; B7H3

Host Species Rabbit

PE-conjugated Anti-B7-H3 antibody(DM53); Rabbit Description

mAb

Delivery 3-4 weeks **Uniprot ID** Q5ZPR3 IgG type Rabbit IgG Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended Flow Cyt 1:100

Formulation &

Background

Dilutions

Purified from cell culture supernatant by affinity **Purification**

chromatography

Liquid PBS with 0.05% Proclin300, 1% BSA Reconstitution

Storage & Shipping Store at 2°C-8°C for 6 months

> The protein encoded by this gene belongs to the immunoglobulin superfamily; and thought to participate in the regulation of T-cell-mediated immune response. Studies show that while the transcript of this gene is ubiquitously expressed in normal tissues and solid tumors; the protein is preferentially expressed only in tumor tissues.
> Additionally; it was observed that the 3' UTR of this transcript contains a target site for miR29

microRNA; and there is an inverse correlation between the expression of this protein and miR29 levels; suggesting regulation of expression of this gene product by miR29. Alternatively spliced transcript variants encoding different isoforms
