

PRODUCT INFORMATION

Clone ID 8D1 GAS6 **Target**

AXLLG; AXSF **Synonyms**

Host Species Rabbit

PE-conjugated Anti-GAS6 antibody(8D1), IgG1 **Description**

Chimeric mAb

Delivery 3-4 weeks **Uniprot ID** Q14393

IgG type Rabbit/Human Fc chimeric IgG1

Clonality Monoclonal Reactivity Human **Applications** Flow Cyt

Recommended

Flow Cyt 1:100 **Dilutions**

Purified from cell culture supernatant by affinity **Purification**

chromatography

Formulation & Reconstitution

Liquid PBS with 0.05% Proclin300, 1% BSA

Storage & Shipping Store at 2°C-8°C for 6 months

> This gene encodes a gamma-carboxyglutamic acid (Gla)-containing protein thought to be involved in the stimulation of cell proliferation. This gene is frequently overexpressed in many cancers and has been implicated as an adverse

Background prognostic marker. Elevated protein levels are

additionally associated with a variety of disease states, including venous thromboembolic disease, systemic lupus erythematosus, chronic renal failure, and preeclampsia. [provided by RefSeq,
